**PULLING OUT OF THE NOSE DIVE**

**English Church Census Road Shows**

A contemporary picture of churchgoing: what the 2005 English Church Census reveals

**Peter Brierley**

Foreword by Dr Rowan Williams, Archbishop of Canterbury

**CHRISTIAN RESEARCH**

The church is not declining as much as it was. Come to a roadshow to find out why, and how the results could apply to your church.

**CHRISTIAN RESEARCH**

## Why roadshows?

Church attendance statistics in England have been heading down for many years, and it has sometimes been hard to find the positive news in the numbers. But the fourth English Church Census shows signs that the nosedive in attendance need not mean the church hits the ground. There are various signs of hope, such as a significant increase in the number of churches which are growing, positive results from ethnic minority churches of all denominations, and a dramatic slow down in the catastrophic loss of children that occurred in the 1990s.

The roadshows will help you understand the positive as well as the less encouraging aspects of the results.

## Who should come?

- Local church leaders, whether your church is growing, stable, or still in a nosedive
- Regional church leaders who set policy and support local ministers
- Anyone who is concerned about the future of the church

## What will the day include?

- The overall results, including the signs of hope
- Specific findings for your region
- Reflection from a leading academic
- Practical workshops to help you apply the Census outcomes
- Encouragement from a local senior church leader, who will also chair the day
- Case studies
- Exhibitions by sponsors
- Special discounts on the Census publications
- The opportunity to buy other books

## Who is behind the Census?

Christian Research undertook it, with support from sponsors, some of whom (including Church Mission Society and Tearfund) will take part on the day.

## What will I get if I come?

- A FREE copy of *Pulling out of the Nosedive* when you book to attend
- *Religious Trends* No 6, the statistical detailed volume, £20 on the day (rrp £30)
- £12 off (25%) for a second person booking at the same time
- Lunch and coffee provided

## Where and when are they?

The day runs from 10.00 -15.30
